 - [Apple Store Link](#)
- Love Battle Competition App - Gaming and competition platform (From Scratch) :**
 - Developed cross-platform competition app for iOS and Android
 - Integrated multiple payment methods: Stripe, Google Pay, Apple Pay, and payment links
 - Published on both app stores with significant user engagement
 - Connected with popular YouTube channel: <https://www.youtube.com/@Maarekthub>
- Links:**
 - Google Play: [Google Play](#)
- Additional Projects:**
 - Arabiyyun Ana: Implemented extensive bug fixes, major design updates, and published multiple app updates with enhanced features
 - Aloo Turkya: Added call functionality, comprehensive UI improvements, design modifications, and delivered several feature updates

FreeLancer
Flutter Developer as Full-time
Accomplishments:

Feb 2024 - Sep 2024

- **CashFlow Application (From Scratch) :**
 - Built complete financial management system from scratch
 - Features: Transaction tracking, wallet limits, employee management, offline mode, report generation
 - Implemented admin dashboard with enhanced control features
- **CashDash Application (From Scratch) :**
 - Developed business management platform
 - Features: Request management, customer outreach system, package tracking, payment data management
- **CV Maker Application (From Scratch) :**
 - Created automated CV generation system for applicant tracking
- **Red Chat Application : (From Scratch) :**
 - Enhanced Android messaging app with design improvements, live streaming features, and bug fixes
- **Awab Application (From Scratch) :**
 - Developed comprehensive Quran app with audio recitation, prayer times, Qibla direction, and notifications
 - Google Play: **Google Play**
- **Money Services Application :**
 - Developed comprehensive financial services application
 - Published on new Google Play Console account with complete setup
 - Created multiple UI designs and user interface components

ATW Ltd.
Flutter Developer (Part-time)
Accomplishments:

Jan 2022 - Oct 2022

- **Quran Kareem | PlayStore (From Scratch):**
 - Led complete development lifecycle from concept to launch
 - Key features: Multi-language translations, bookmarking, audio recitations, search functionality
 - Successfully published on Google Play Store
- **Royal Bees Staff | PlayStore (Feature Handling):**
 - Played a key role in adding new features to existing mobile application, enhancing functionality and user experience
 - Identified and resolved bugs and performance issues to improve app stability, resulting in reduced crash rates and improved app ratings
 - Communicated effectively with stakeholders to gather requirements and provide regular project updates
- **ATW SCOM POS | PlayStore (Bug Fixes and Optimization):**
 - Addressed user-reported bugs through thorough testing and troubleshooting to identify root causes and implement effective solutions
 - Optimized app performance and efficiency through code refactoring and performance tuning

ATW Ltd.
Flutter Developer (Intern)

Sep 2021 - Jan 2022

Developing mobile applications using Flutter framework, collaborating with the team to design and implement new features, troubleshooting and debugging applications to ensure optimal performance, participating in code reviews and providing feedback, researching and implementing best practices for mobile app development.

Accomplishments:

- **Doaai (دعائي) | PlayStore:**
 - Developed complete mobile application from concept to publication
 - Focused on delivering high-quality user experience and functionality

EDUCATION

Advanced Academy | Management Information System

Sep 2018 - May 2022

Bachelor of Management Information System - GPA : Good

CERTIFICATES

- **Pixel:**
 - Advanced Flutter Developer Course.
- **ATW Ltd.:**
 - Internship Certification
